**Title:** “Color Management 101”

### **Abstract**

Color permeates all aspects of our lives, and shapes how we view the world. The perception of color is extremely subjective, and it can be viewed many different ways, due to a variety of factors. Industry professionals rely on the use of tools and technology in order to quantify and set parameters, and in packaging, color can greatly impact shelf presence and perceived product quality as well. The focus of this session is to educate the audience on the technicalities and communication of color, for the ultimate goal of gold-standard quality and consistency.

### **Biography**

**Jasmine Hietpas** is the Senior Manager of Print Product within the Sourcing business unit at HAVI, a global, privately owned company focused on innovating, optimizing and managing the supply chains of leading brands. She is responsible for leading the Global Print Quality Management team, proactively delivering enterprise brand, print quality, and color management solutions worldwide, with a focus on innovation and continuous improvement utilizing industry technologies.

Previously she led the graphics commercialization process at HAVI, delivering results from concept through print manufacturing in the packaging supply chain. Prior to HAVI, Jasmine held various roles at Southern Graphic Systems (SGS) and has over 15 years of experience in the industry.

Jasmine holds a Master of Science degree in Print Media from Rochester Institute of Technology, as well as a Bachelor of Science in Graphic Communications from Clemson University.

# Letter from the Chair

By Chris Gay

May 2021

Hello Fellow Members,

The upcoming May member meeting is my favorite. We get to award scholarships to some deserving students. I can't think of a better way to promote quality for future generations. It should be a rewarding experience for all.

The presentation of Color Management by Jasmine Heitpas will follow scholarships. This is a subject I have never heard about before, so I am looking forward to learning some of the finer points of color quality.

We still have the Vice Chair position open on our leadership roster. If you are interested, please contact me or any other SLC member for details.

This will be our last meeting before the summer break. Our next meeting will be September 2<sup>nd</sup>. It is my sincere hope that we can go back to "in person" meetings by then?

I wish everyone a safe and relaxing summer. See you in September.

Best Regards,

Chris Gay-Fox Valley Section 1208 Chair

## Manufacturers Upbeat Working Remotely

Nearly 74% of manufacturers said they are optimistic about the future, and adapting and rebounding in the wake of the COVID-19 pandemic, according to a recent survey.

Manufacturers said they are also adopting new technologies and processes for managing production and controlling quality, including 75% who noted more of their workers are now working remotely using cloud-based computing, reported InfinityQS International Inc., a U.S. software developer.

“The impact of coronavirus has been a massive wake-up call for all industries and manufacturing is no exception, particularly as a sector still heavily dependent on manual processes and legacy technologies,” said InfinityQS’s Jason Chester.
